INTRODUCTION

The establishment of International Committee for Imaging Science (ICIS), under the original name of International Committee for the Science of Photography (ICSP), can be traced back to 1889 when its first congress: the International Congress on Photographic Science (ICPS) was held in Paris. Since then, it has upheld its goal of providing a platform for imaging scientists and researchers to exchange information on the latest developments in imaging science and technology, and to promote friendship and cooperation among these individuals by establishing a framework and mechanism for organizing international congresses on imaging on a regular basis. ICIS2010, the 31st Congress in this series, will be held between May 12-16, 2010, in Beijing, China. Jointly held with the 2nd Beijing International Conference on Imaging: Digital Imaging & Applications and the 2010 Academic Annual Conference of CSIST, ICIS2010 is sponsored by ICIS and CSIST; cosponsored by the Beijing Institute of Graphic Communication (BIGC), China Lucky Film Corporation and the Technical Institute of Physics and Chemistry (TIPC); in cooperation with the Society for Imaging Science and Technology (IS&T), the Royal Photographic Society of Great Britain (RPS), the Imaging Society of Japan (ISJ), the Society of Photographic Science and Technology of Japan (SPSTJ), the Korean Society for Imaging Science and Technology (KSIST) and German Society for Photography (DGPh).

Under the theme “Imaging Science and Technology in the Digital Era”, ICIS2010 places a special focus on digital imaging and its applications over a wide spectrum of topics, covering all aspects of imaging science, technology and related applications. Its main purpose is to provide an opportunity for imaging scientists, technologists and researchers worldwide to exchange their latest findings and achievements in research; to review important progresses and the latest advances in imaging; and to share insights about future trends and directions, at a time when imaging and its related industries are reshaped and rapidly expanded by digital technology. Broad program topics are proposed for both oral and interactive (poster) paper contributions. World-renowned scholars and experts in imaging and related scientific and industrial fields will be invited as speakers for plenary and keynote talks. In addition, an on-site exhibition, short courses, local tours, post-Congress tours and social functions are scheduled to enhance the overall Congress content. Beijing, a historic and culturally-significant city, boasts many new faces—such as the facilities built for 2008 Beijing Olympics—to visit and explore. We invite you to participate in and contribute papers to this very exciting Congress.

PROPOSED PROGRAM TOPICS

- Digital methods, systems, and equipment for image capture
- Color science and technology for digital imaging systems
- Digital image processing, manipulation and communication
- Novel imaging and related functional materials, such as
 - Photochemical imaging materials
 - Photothermal imaging materials
 - Photoelectronic materials
 - High sensitivity materials for direct laser imaging
 - Novel processes and materials for micro-/nano-lithography
 - Other advanced and novel imaging functional materials
- UV curing materials and technologies
- Digital image rendering and display technologies, such as
 - Novel methods and algorithms
 - Flexible and organic displays
 - Paper-like displays and e-papers
 - Other novel image rendering and display systems and technologies
- Evaluation methods and instrumentation for digital imaging and related performances
- Digital imaging technologies and systems, such as
 - Digital camera
 - Digital medical imaging
 - Remote sensing
 - Intelligent imaging
 - Other novel digital imaging technologies and systems
- Digital media and image performance
- Digital output and hardcopy technologies, including
 - Electrophotography
 - Inkjet Imaging
 - Thermography
 - Magnetography
 - Other novel imaging systems and technologies
- Digital photofinishing and systems
- Digital and on-demand printing/publishing technologies and systems

ACADEMIC AND SOCIAL CONTENT OF THE CONGRESS

ICIS2010 will consist of plenary and keynote talks, oral and interactive presentations, short courses and an on-site exhibition. Beside these academic activities, the Congress will provide short tours to the major facilities for the 2008 Beijing Olympics. Post-congress tours to well known locations around China will also be arranged. Detailed arrangements of the academic and social contents will be included in the Preliminary Program and updated on the Congress's official website at www.csist.org.cn.

INVITATION AND INSTRUCTIONS TO AUTHORS AND PARTICIPANTS

We invite you to be among the speakers at ICIS2010 who publicize their latest findings and achievements in research and who share insights in the developments and future trends of imaging science and technology. Your paper contribution is solicited and will be an important element to the success of the program.

The “Proposed Program Topics” provides a detailed list of possible topics to be covered. Papers submitted to the organizing committee for review must demonstrate significant technical content representing original work in the related areas. Requirements for abstract preparation and submission can be found below. All submissions will be reviewed and the author will be informed directly of acceptance or rejection by January 2010. Those accepted will be sent by an invitation letter, which acts as the legal document for both approval and visa procedures. Those who would like to attend the Congress, but do not publish papers, can also submit a written intention of participation to the Organizing Committee and an invitation letter will be prepared and issued.

Authors whose papers have been accepted are required to prepare and submit a full text of the paper for publication in the Congress proceedings. Instructions and requirements for paper preparation will be included in the invitation letter. For your reference, the oral presentation will be 20 minutes in length, including 5 minutes for question and answer; the interactive presentations will consist of a 5-minute oral briefing followed by a 2-hour poster display and discussion session. Plenary and keynote speakers will be notified directly regarding their time allotment. The official language of the Congress is English.

Requirements on abstract preparation and submission:

Please prepare your paper abstract as required below and send it via e-mail to ***icis2010@csist.org.cn*** by December 31, 2009.

- Paper title;
- Author name(s), affiliation(s), detailed postal addresses, telephone and fax numbers, and e-mail address;
- Abstract of approximately 200 words, clearly identifying the technical content of the paper;
- 100-word biographical sketch of the principal author;
- Indication of presentation type (Oral or Interactive) and preferred session assignment as outlined in the Proposed Program Topics.

For more details, please direct inquiries to Secretariat of the Organizing Committee through email, telephone or facsimile to:

GENERAL INFORMATION

1. **Working Language:** English
2. **Passport and Visa:** China International Conference Center for Science and Technology (CICCST) will send you a visa application with which you can apply for an entrance visa at the nearest Chinese Embassy or Consulate generally after getting your valid registration form as well as payment
3. **Weather:** Early summer is the best season in Beijing. The weather in May is nice and a bit dry with the average daily temperature of 20°C.
4. **Insurance:** The registration fees do not include insurance for the participants regarding accidents, sickness or loss of personal property. You are advised to make necessary arrangement for a short-term health and accident insurance before leaving your country.
5. **Currency Exchange:**
In China, only RMB is used. Exchange centers can be found at airports, hotels and tourist shopping centers. The rate of exchange is set by the Bank of China, which is now about US\$ 1.00 = RMB 6.82. Visa, Master, American Express, Diners Club and JCB are accepted in many department stores and hotels.
The Bank of China and most hotels can cash traveller cheques issued by any foreign bank or financial institution. You need to show your passport and pay commission. Traveller cheques signed over to a third party cannot be cashed in China.
6. **Arrival in Beijing** Taxi service is available at Beijing Capital Airport during the whole day. The cost from the airport to CNCC is RMB 90-100. Please show the following note to the taxi driver to get to the CNCC.

Please take me to the China National Convention Center (CNCC). Thank you!

请送我到国家会议中心（北京市朝阳区天辰东路7号）。谢谢！

7. **Reconfirmation of Departure Air Ticket.** The departure air tickets (both international and domestic) should be reconfirmed 72 hours in advance. You could make it by calling the airline offices in Beijing. Global Sales Hotline: (+86) 4008-100-999

IMPORTANT DATES & CONGRESS VENUE

Dates

- Deadline for Application of Participation (Abstract Submission): December 31, 2009
- Notification of Acceptance (Invitation Letter): January 2010
- Deadline for submission of the full text of accepted papers: March 31, 2010
- Conference Dates: May 12-16, 2010
(May 12 for Short courses and Registration; May 13-16 for Technical Sessions)

Venue: The conference will be held in the China National Convention Center (CNCC).

China National Convention Centre is right next to the Bird Nest (China National Stadium for the Olympics opening and closing ceremony), the Water Cube (National Aquatics Center) and National Indoor Stadium. CNCC complex consists of the Convention Center, CNCC Grand Hotel, InterContinental Hotel and two office buildings.

Sitting in the center of the Olympic commercial circle between Beijing's fourth and fifth ring roads, CNCC boasts an enviable location. It's only 30 minutes drive to the airport and the subway station is connected with CNCC's basement which enables people to quickly go to the city center, the airport, the Beijing Railway station, the central business district, China's silicon valley Zhongguancun, and many tourist attractions such as Tian'anmen Square, Forbidden City and Summer Palace.

REGISTRATION

Registration is required for all participants. Registration fees indicated below include: admission to all sessions and events of the conference (with the exception of Tutorial), a copy of printed and CD conference proceedings, coffee/tea breaks, conference banquet, 3 lunch and 2 dinner coupon tickets for meals during the conference.

After finishing registration, accompanying spouse is entitled to: admission to all sessions and events of the conference (with the exception of Tutorial) and conference banquet. Registration fee as follows:
